

# HOMWORK

## Buy It Here!

Chris and his father were driving down the road when he saw the above sign. If Chris and his father combine their money, they will have \$50.00.

1. How many video games could they buy?
2. How many games could they buy with the \$240.00 that Chris has in his savings account?
3. Fill in the table below. How did you decide which numbers when where?

Cost of games	1											
Total # of games	\$15											

4. What number sentences can you use to solve problems with this table?
